Professional Summary

PGDM (Marketing) candidate with experience in market analysis, business development, customer relationship management, and process optimisation. At Tata Steel, I built a driver attribution model showing raw materials drive 76% of HRC steel price and built an automated dashboard to enable data driven decision making. At Shree Krishna Printech, a printing business, spotted the gap and cut a 2–3 day workflow to 2 hours. Eager to leverage my skills to drive product growth, strengthen market presence, and improve sales performance.
